CONSULTATION ... CASES ... CURES GUARANTEED OR NO PAY REQUIRED. IN ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED.

The above rules, established [illegible] *Dr. J. C. Young in 1850,* [illegible] *which have done so much* [illegible] *secure the reputation of this* [illegible] *stitute, are still adhered to,* [illegible] *rding those in need of* [illegible] *dical aid, the certainty of* [illegible] *re and the utmost confidence. There is nothing of so great* [illegible] *portance to the sick as to* [illegible] *ow where to find a physi*[illegible] *n whose skill and humanity* [illegible] *assurance of proper and* [illegible] *licate treatment. The Doc*[illegible] *would respectfully call the* [illegible] *tion of those of both sexes* [illegible] *o are suffering or in trouble* [illegible] *the invariable success that* [illegible] *marked the career of the* [illegible] *stitute in the seventeen years* [illegible] *its existence.*

It is unnecessary in this con[illegible] *ction to enumerate all the* [illegible] *mplaints treated at the In*[illegible] *tute, but the Doctor feels it* [illegible] *duty to call especial atten*[illegible] *n to that terrible scourge, SEMINAL WEAKNESS, That is sapping with its in*[illegible] *diousness the very life of its* [illegible] *ctims; in the treatment and* [illegible] *re of which the Institute has* [illegible] *rned so enviable a reputa*[illegible].

READ! READ

[illegible] aware that by dwelling upon so uninviting a subject the decay of manly vigor through the loss of the [illegible] of life, the ignorant may asperse my motives [illegible] to point out to those who suffer [illegible] decay, the true cause of their affliction into [illegible] to be forced into abeyance. How [illegible] disease of Seminal Weakness is [illegible] the practical specialist who devotes his time [illegible] can tell, but its presence can be detected by [illegible] Attended by noting the following symp[illegible] of the back and limbs, languishing [illegible] power, nervousness, irrita[illegible] accompanied by hot head, sym[illegible] short breath, flushings of the face [illegible] of the mind, loss of memory [illegible] colorless slight discharges upon the [illegible] trembling; palpitation of the heart; [illegible] variable temper, etc.

[illegible] MAN, if you experience any of the [illegible] stated above, pause to consider. The [illegible] the [illegible] moment in which you may [illegible] You may feel strong now, but [illegible] ever practised the vice of self-abuse even in the [illegible] you have the seeds of weakness in your [illegible] and their undermining influence will, [illegible] the fair edifice of your strength in the [illegible] you a helpless, abject being. It is not a [illegible] that declares itself at once. Therein lies its great danger; for while the patient is being treated for some [illegible] of the [illegible], Lungs, Brain, or Digestive functions, [illegible] into a [illegible] debility that soon adds his [illegible] of the [illegible] of the terrible disorder.

[illegible] in the best form and languishing steps, the [illegible] of the fascinating vice. Mark the course of the [illegible] complaint in the hollow cheek and dull eye [illegible] one of the premonitory symptoms. [illegible] it is easily shaken off, but it grows eventually into a [illegible] ration to [illegible] his regular business. The [illegible] appetite, and restless nights.

[illegible] of the complaint to assume [illegible] that leave the poor victim but little hope of [illegible] at it may wither your [illegible] and blast your [illegible] aspirations. [illegible] At by a natural impulse as a hope of [illegible] This is an error of the first magnitude for the [illegible] the [illegible] of the occasion [illegible] and he finds himself in a deplorable [illegible] but the slightest hope of [illegible] result in offspring, they are [illegible] decrepid and degenerate. This is [illegible] married or single, and in all [illegible].

[illegible] If you feel any of the symptoms of [illegible] or if your acts have been such as to [illegible] at application secure to you [illegible] of health and happiness. The Doctor [illegible] or other deleterious drugs—cures, when taken [illegible] always guaranteed, and full and proper vigor [illegible] are assured of every confidence.

[illegible]SONS AFFLICTED WITH VENEREAL.

[illegible] the seventeen years since the establishment [illegible] the number of cases of Venereal that [illegible] treated show a record unsurpassed by any [illegible] world and the success that has invariably [illegible] course of treatment

[illegible] hout Mercury or other Deleterious Drugs,

[illegible] only the use of them to be not only [illegible] for, but actually dangerous, for it is a [illegible] medical principle that those poisonous drugs [illegible] the blood, ruin the constitution and destroy [illegible]

[illegible] a cure in recent cases in a few days [illegible] no difficulty in curing those of long duration [illegible] subjecting the patient to such treatment as will [illegible] him the slightest suspicion [illegible] his business, whether [illegible] need not be changed. Cures always guaranteed, [illegible] required.

[illegible] PORTANT TO FEMALES.

[illegible] in trouble or afflicted with disease, and [illegible] surgical assistance [illegible] inquiry should [illegible] there is there a physician competent to administer [illegible] and whose respectable standing in society will [illegible] him to the confidence of the community? The [illegible] notwithstanding how imperatively necessary these [illegible] are, feels called upon to interpose, and by [illegible] the attention of the afflicted [illegible] that he has [illegible] of Obstetrics and Female Diseases for twenty [illegible] and is fully qualified to minister to all cases [illegible] medically and surgically [illegible] and practice [illegible] through a number of years [illegible] hospitals and private families—can make [illegible] the hands of the [illegible] Therefore families [illegible] All in affliction can [illegible] sympathise with and [illegible] the utmost [illegible] by letter or otherwise free. Cures [illegible] all weakness and trouble incident to the sex. [illegible] treatments are provided when desired, whereas [illegible] all the advantages of unremitted attention of the [illegible] and the most skillful and faithful nurses.

[illegible] —Persons either male or female [illegible] in the interior are often deterred from [illegible] because they cannot spare the time nor [illegible] of a visit to the city. [illegible] statement of the symptoms and information [illegible] upon the complaint will enable him to prescribe [illegible] so that they can be cured at home. [illegible] worry about writing no matter what the [illegible] their complaint, as the communication will be [illegible] one except the Doctor and will be returned or destroyed [illegible] confidence and either be returned or destroyed. DISPATCHES TO THE OREGONIAN

DATES TO SEPTEMBER 7

More of Lee's Pronunciamento

CHICAGO, Sept [illegible] [The preceding part of this letter of General Lee was published in our telegraphic dispatches some days ago] We have been accustomed from childhood to look upon them (the blacks) with kindness. The change in the two races has wrought no change in our feelings towards them. They still constitute an important part of our laboring population. Without their labor the lands of the South would be comparatively unproductive. Without employment which Southern agriculture affords they would be destitute of means and become paupers depending on the public bounty. Self interest even if no higher motive would prompt the whites of the South to extend to negroes care and protection. The important fact that the two races are under existing circumstances necessary to each other is gradually becoming apparent to both and we believe that but for the influences used to excite the passions of the negroes the relations of the races would soon adjust themselves on a basis of mutual kindness and advantage to both. It is true that the people of the South, together with the people of the North and West, are for obvious reasons opposed to any system of law which would place the political power of the country in the hands of the negro race, but this opposition springs from no feeling of enmity, but from a deep seated conviction that at present the negroes have not the intelligence nor other qualities necessary to make them depositaries of political power. They would inevitably become the victims of demagogues who for selfish purposes would mislead them to the serious injury of the public. The great want of the South is peace. The people earnestly desire tranquility and restoration of the Union. They deprecate disorder and excitement as a most serious obstacle to their prosperity. They ask the restoration of their rights under the Constitution. They desire relief from oppression and misrule. Above all they would appeal to their countrymen for the re-establishment in the Southern States of that which has justly been regarded as the birthright of every American—the right of self government and to establish that on a firm basis. We can then safely promise on behalf of the Southern people, that they will faithfully obey the Constitution and laws of the United States, treat negroes with kindness and humanity and fulfill every duty incumbent upon peaceful citizens loyal to the Constitution of their country. [illegible]

California Matters

WASHINGTON, Sept. 4—Geo. D. Tiffany has been appointed Gauger for the Second District of California.

Secretary Schofield has directed the Board of officers to assemble at San Francisco October 1st, to ascertain and recommend the most suitable armament for a Fort on Alcatraz Island and any other forts on the Pacific coast.

No Session of Congress in September—Revenue Receipts

CHICAGO, Sept. 7.—The *Times* special says the probability of a September session of Congress is daily growing less.

Letters from the Western Republicans universally advise against meeting. The pressure from the South is considerably abated.

The Internal revenue receipts for July and August amount to $34,000,000. This is considerably better than was contemplated.

Miscellaneous.

NEW YORK, Sept. 7.—The steamer *Dacotah* from Aspinwall has arrived.

It is stated that a rich and powerful company has been formed in London with Cyrus W. Field as the controlling man to form a continuous line of Telegraph from England to China by way of the Mediterranean, Egypt and India. This company has purchased the cable line from Malta to Alexandria and is about to relay that cable in deeper water.

HALIFAX, Sept. 4.—Attorney-General Williams concluded the debate on the repeal resolution in the most violent anti confederation speech of the session. Blanchard and Pine, the only two Union members, retired, and the resolution carried unanimously.

NEW YORK, Sept. 5.—The *Herald* has a long account of an alleged discovery of a new method of electrical sub-aqueous communication, by which the discoverer claims he can communicate through the longest distances under water without cable or other conductor, using water alone as a conducting medium. He proposes to establish communication by this process within three months between Montauk Point and Spain. He says it can be done at a cost of $100,000. Electricians here express incredulity in this statement, though the inventor declares that he has carried on conversation by the process for 136 miles through the water on Lake Ontario.

OUR WASHINGTON LETTER

FROM OUR REGULAR CORRESPONDENT

WASHINGTON, Saturday, Aug. 22, 1868.

THE PRESIDENTIAL CANVASS

The interest and excitement in the Presidential canvass is rapidly increasing. In many places the excitement is said to be unparalleled, and everywhere the Republicans are wide awake, and making an active and vigorous canvass. Flag staffs are being reared all over the land and Grant and Colfax Tanneries are being erected in every part of the country. In one of the wards in Boston the Republicans are erecting a Grant and Colfax Tannery fifty by one hundred feet to be open during the campaign, and in which tanning will be carried out without interruption from the day of its inauguration to the hour that shall bring the news of the election of the Republican candidates. The same spirit prevails all over New England and throughout the Middle States.

In Indiana the canvass was opened long ago, and the Hoosiers are now engaged in one of the most exciting political contests ever witnessed in that evenly divided and always sharply contested State. In all the other States the work was commenced much later and is only fairly inaugurated.

In Illinois immense Republican mass meetings were held last week—at Chicago on the 12th inst., at Princeton and Alton on the 13th, and at Galena on the 14th. The speakers were Hon. N. B. Judd, J. C. Henderson, Rhiele and others of Illinois, and Hon. M. H. Carpenter of Wisconsin, the probable successor of Doolittle, in the United States Senate.

The battle in New York has been raging for some weeks along the whole line from Long Island to Niagara. The Republicans feel confident that they will carry the State. Within a few days past they have held enthusiastic meetings in various parts of Long Island, in several of the wards of New York City, at Elmira, at Sing Sing, at Poughkeepsie, and in many other parts of the Empire State. The local orators are too numerous to mention in detail. Among those who are taking part in the canvass on the Republican side, are Messrs. E. P. Wheeler, E. P. Brooks, T. C. [illegible]well, J. T. Davidson, Seymour Dexter, B. G. Noble, H. J. Scudder, Geo. Cochrane, Gen. Sickles, Horace Greeley, J. A. Griswold (candidate for Governor), and a host of others. Among those from abroad may be mentioned Gen. John A. Logan, the soldier orator of Illinois, who is everywhere greeted with great enthusiasm. He is not a close reasoner but as an impetuous off hand stump speaker he is regarded by many as the most successful and brilliant man in the Nation, though I am of the opinion that as a master of that style of oratory Gov. Geo. L. Woods, of Oregon has no superior on American soil. Arrangements are being made to hold an immense mass meeting in New York City within a few weeks and most of the prominent speakers of the country who can be spared from other engagements will be secured to address the meeting, or rather, meetings, for it is proposed to hold branch meetings on the same occasion in various parts of the city. One of these will be held in Wall street to attract the merchants and business men and warn them of repudiation to come if Democracy ever gets control of this Government.

Both parties in Pennsylvania appear to be somewhat sluggish, and the canvass has hardly commenced yet on either side. However a number of Republican meetings have been held within a few days among the number a very large one at Alleghany City and another at Birmingham. At the last election the Democrats carried Pennsylvania by a few hundred votes but they brought out their last vote to say nothing of the hundreds of foreigners whom they provided with forged naturalization papers and steeped in coffee to give them the appearance of age. On the other hand, nearly 30 per cent. of the Republicans failed to vote. If the Republicans bring out their whole strength as there is every prospect that they will, Grant and Colfax will carry the State by a large majority. "As goes the Keystone State, so goes the Union."

In New Jersey the canvass is being conducted with extraordinary activity and vigor by both parties. The Republicans have formed Grant and Colfax clubs throughout the State and uniformed Boys in Blue are seen marching in nearly every city and village. Meetings are being held in every part of the State. Last Wednesday the 19th the largest political meeting ever held in that city assembled at New Brunswick and was addressed by John J. Blair, Republican candidate for Governor and Horace Greeley. An offer is made through one of the New Jersey papers to bet $5,000 that Gen. Grant will be elected President of the United States; $5,000 that John J. Blair will be elected Governor of New Jersey and $5,000 that Gen. Grant will carry twice as many States as Seymour. Yet none of the Copperhead gamblers with which New York city swarms have yet seen fit to take it, nor the $18,000 which was deposited in the safe at the St. Nicholas Hotel on the day that Seymour was nominated to bet on Grant.

A lively canvass is going on in West Virginia, though the Democrats have no hopes to carry that State. A large Republican mass meeting was held at Parkersburg on the 15th inst., at which speeches were made by Gov. Pierpont and others. Another large meeting was held at Clayville on the 19th which was addressed by Gov. Stanton and other speakers.

In New England although the Democrats do not claim anything out of Connecticut the contest seems to be quite lively in many places. Large meetings have been held in Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire and Maine. Wm. D. Kelly of Pa. and James G. Blaine of Me. and various other speakers are now stumping the latter State.

In Ohio although the State election will take place on the 13th of October, the same day of the election in Indiana, Iowa and Pennsylvania, there seems to be less excitement than in any other State. It is not probable that the Democrats have any hope of carrying the Buckeye State although they claim it and the Republicans are quite confident, which may, in a measure, account for the apparent indifference on both sides.

In Wisconsin the political excitement runs high. Large Republican meetings have recently been held at La Crosse, Milwaukee and elsewhere, addressed by Gen. C. C. Washburn, Gen. H. E. Paine, members of the present Congress, Judge Hubbel, Gen. Kellogg, Gen. Winkler and many others.

A lively canvass is going on in Missouri. J. W. McClure, candidate for Governor, J. F. Benjamin and Gen. Pile, all members of Congress, are stumping on the Union side.

The Iowa Republicans feel certain that they can carry their State by 30,000 to 40,000 majority but nevertheless they are having quite a lively time with their Copperhead adversaries, who make up in bitterness and impudence what they lack in numbers.

In most of the Southern States the canvass is quite as lively, and far more bitter than in the North. The Copperheads do not pretend to claim but two of those States—Arkansas and Georgia. They concede Louisiana, Alabama, Florida, South Carolina and North Carolina to Grant and Colfax. Assurances come from every part of the country that the Union party was never better organized or more harmonious. The Union party of the country are engaging in the canvass with great earnestness and ability, and complete harmony prevails among them in every State.

On the other hand the Democrats are not harmonious. There is a clash between the gold and greenback factions, headed by Belmont and Pendleton respectively, between the Hancockites and Seymour Copperheads, and between the "conservative" renegades of the Buckalew D[illegible] type and the rebel revolutionists of the Blair[illegible]. But Democrats are so servile, so [illegible] used to being led by the nose by demagogues, that it makes but little difference whether the [illegible] or platform suit them or not they will all vote the ticket anyway. Their leaders are actively at work, and, so far as vigilance and [illegible] can accomplish anything, they are doing the very best that can be done by their candidates.

NOMINATIONS AND REJECTIONS

A few days ago in accordance with a new rule of the Senate the Secretary of that body furnished the President with a list of [illegible] made to and rejected by the Senate, and also a list of nominations made and not confirmed nor rejected during the last session of the Fortieth Congress. The nominations not acted on are required to be returned to the President [illegible] the Senate adjourns or takes a recess of more than 30 days, and they are not to be acted upon afterwards unless again submitted to the Senate by the President. During the last session the [illegible] rejected one hundred and twenty eight nominations, and left eighty four unacted upon, making two hundred and twelve nominations that the Senate refused to confirm.

JOURNEYMEN TAILORS CONVENTION.

The Journeymen Tailors International Convention, which has been in session in this city for some days past, has completed its business, and adjourned to meet at Pittsburg next year, in August. Before adjourning, the members of the Convention paid a visit to the White House, recognizing the President as a fellow [illegible] of their craft.

THE CHINESE TREATY—THE [illegible]

The treaty between the United States and China, which was ratified by the Senate just previous to the adjournment, has been sent to the [illegible] Government for its approval. So it will be [illegible] months before the ratifications of the treaty can be exchanged. The Embassy, after having spent a couple of weeks at the residence of Mr. [illegible], at Auburn, and at Niagara Falls, are now in Boston.

MRS. SENATOR TRUMBULL,

who died at the residence of Senator Trumbull, on Capitol Hill, in this city, last [illegible], was a very estimable lady and was much [illegible] by all who knew her. She was the President of the Soldiers and Sailors Orphan's Home, and by her exertions in behalf of the [illegible] destitute persons, did a great deal of good. Her last absence from home was on the 30th of May, when she went to Arlington Heights and [illegible] in strewing the graves of our Union soldiers with evergreens and flowers. Her remains, accompanied by her husband and family, left here on a special car last Monday night, for Springfield, Illinois, the residence of her [illegible], Dr. Jayne.

TROOPS FOR THE PACIFIC—REVENUE [illegible] FOR ALASKA.

All the disposable recruits of the Regular army depots in New York harbor, are said to be under orders for the military division of the Pacific. Secretary McCulloch has ordered that a [illegible] cutter be sent to the coast of Alaska to guard the Government interests, and prevent the infringement of the laws relative to the destruction of fur bearing animals.

CONGRESSIONAL COMMITTEE.

The Congressional Republican Executive Committee, headquarters in the Capitol, are now sending out an immense number of pamphlets [illegible] and other documents, at the rate of [illegible] per week. This [illegible] they are [illegible] number of newspapers and documents [illegible] in the German language. The Committee receive favorable accounts from [illegible] who have returned home, and [illegible] from nearly every part of the country, of the political situation.

NEW MAIL ROUTE.

The Postmaster General has advertised [illegible] the act of Congress approved June 25, 1868, for proposals for carrying the mails from Fort Abercrombie, Dakota, to Helena, Montana, [illegible] miles and back, three times a week, in four [illegible], service to commence Jan. 1, 1869, and end June 30, 1872. Bids will be opened on the 1st of October, and decided by the 3d.

OREGON STATE LANDS.

Day before yesterday Commissioner Wilson, of the General Land Office, submitted to Secretary Browning lists of tracts of land selected in Oregon by the Governor for the State, in part satisfaction of the five hundred thousand acres granted for educational purposes by act of Congress, approved September 4, 1841. These tracts contain an aggregate of 103,[illegible]77 acres. The lists were approved and certified transcripts forwarded to the district land offices and to the Governor of Oregon.

MINISTERS WATTS AND ROSECRANS.

Henry M. Watts and Gen. Rosecrans, the new Ministers to Austria and Mexico, were here during the week receiving instructions from the State Department. Mr. Watts will leave for Austria in a few days but Gen. Rosecrans will not take his departure for Mexico for some time to come.

RAPID PROGRESS OF THE PACIFIC RAILROAD.

The Secretary of the Interior has just received an affidavit from the President of the Union Pacific Railroad announcing that an additional section of twenty miles of road, extending to the seven hundred and eightieth mile post west of Omaha, has been completed. At this date passenger trains are running on the Central Pacific two hundred and thirty five miles east of Sacramento, making 995 miles of road completed. The track is being laid down on the eastern end of the road at the rate of four miles per day. At this rate, before the close of next summer, the entire road will be completed, and the traveler can cross the continent from the Atlantic to the Pacific in eight days.

K.

A big banner has just been swung out of the Metropolitan Democratic Club room in New York. Seymour's portrait is on one side and Blair's on the other. The portraits are flanked by two horns. The *World* calls them "horns of plenty." This is a mistake. They represent the two horns of the Democratic dilemma, both of which were taken by the Tammany Convention. They represent also the manner in which Seymour and Blair will be elected—"in a horn." The pair of horns show that the Convention "made a great ball" [illegible] On one side is the emblematic [illegible] of Seymour, the man who fished [illegible] nomination and caught it; on the other [illegible] horn—whisky straight. Both are the horns of the ungodly, which we read "shall be put down."—*Hartford Post*.

The Cleveland *Leader* says: "If you want to mad an Ohio Democrat mad, say Blair to him. It's worse than a red rag to a turkey [illegible]. The Democrats in Oregon whom Blair pitched out of Missouri on a Federal bayonet are ardently in love with him.

The Lamp of Experience

The Democracy tell us that it is time to ignore dead issues They want to bury the past, and make the fight on the negro and taxation No doubt they would be glad to do this But the trouble is the dead issues will not ignore *them* That is their great misfortune. They went down with the dead issues and were buried under them Their declaration that the Government had no power to coerce a seceding State their hostility to emancipation, their opposition to the war their abuse of the soldiers and their boastful prediction that the rebels would never be conquered,—these all are dead issues, and they who once advocated them are crying in vain "Who will deliver us from the body of this death!" Thus it is very clear that some of the things they use to contend for are really dead issues, but when these issues went under, their advocates went under with them The sepulture was every way complete and they have not escaped from their prison and never will.

The Union people of the country are neither sorry for nor ashamed of their achievements during the last eight years, therefore they will not renounce what they have done They are proud of their record, and will not c... e it and stultify themselves by accepting the policy and rule of a party which they would not trust a few years ago They remember the agency of this Democratic party in bringing the nation into a dilemma from which it could extricate itself only by fighting for its life. They have not forgotten that the country went to pieces under a Democratic Administration, and that Democratic officials could find no power in the Government to prevent it. They know perfectly well that the principles of this party, when pushed to their logical end, must lead to national disintegration and civil war. They know this by actual experience Their knowledge on the subject is not a theory The proof of the destructive tendency of Democratic principles, so-called, is as clear as the noonday sun And though many of the issues which that party raised during the war are dead the recollection of them survives, as a warning for the future to avert disasters from the nation The lamp of experience is still as safe a guide as it ever was

VALLANDIGHAM.—Evidence is published in late Eastern papers which shows Vallandigham in the character of a rebel agent in 1863 when his party in Ohio were running him for Governor. Soon after the return of the dime martyr from exile, he made a speech referring to the manner in which he ran the blockade, but declined to give the particulars and facts These facts were recently furnished the authorities at Washington by the Captain of the blockade-runner in which Vallandigham took passage. This Captain, whose name is Francis Johns, of New Cross in the county of Kent, England, makes affidavit that in June 1863 he commanded the steamer *Harriet Pinckney*, a blockade-runner, and that he carried Vallandigham and several Confederate officers from Bermuda to Halifax, that Norman S Walker, the Confederate agent at Bermuda informed him that the expedition was a secret ... organized at Richmond, which Vallandigham was the head of, that they were to have mob meetings in Boston and New York to ... to a diversion in favor of Lee's army, then about to invade the North, that during the ... the objects of the expedition were constantly and freely canvassed and plans laid for ... ing them out, that Vallandigham was the acknowledged head or chief, and that all the arrangements were made under his immediate supervision; that he had come direct from Ri... and by way of Wilmington for the purpose of conducting the enterprise; that he, (Captain Johns), had frequent conversations with Vallandigham on the subject, and that he ... ded him and his Confederate confreres at Halifax on the 30th June. The affidavit is quite long, and the names of many rebel officers connected with the scheme are given It fully reveals the fact that Vallandigham went North at the head of a party of rebel emissaries, charged with the mission of fomenting riots and insurrections, and that the draft riots of 1863 followed immediately on the arrival of those emissaries This excellent Democrat, as a reward for his services, is again the candidate of his party for Congress in Ohio

A COPPERHEAD COMPLAINT—The Wade Hampton Democracy continue to censure Grant and other Union Generals, because so great an expenditure of life was incurred in putting down the rebellion If this is not the sublimity of impudence it would be hard to find an instance of that kind of thing The authors of this censure are themselves the persons who are mainly responsible for this destruction of human life By their factious course they gave great encouragement to the rebels and caused the war to be prolonged far beyond the period which otherwise would have witnessed its close Had they united with the Union people of the North in the energetic determination to quell the rebellion at once, the rebels would have been intimidated and the war would have ended at least two years sooner than it did But their strenuous opposition to the prosecution of the war emboldened the rebels to fight on and many of the most bloody fields of the war are attributable to this unfortunate policy And now for this party to turn round and censure the Union Generals for the great destruction of life in the war, is a piece of freezing impudence which Wade Hampton and Fort Pillow Forrest scarcely excel when denouncing the "Radicals" for their alleged hostility to the "best Government the sun ever shone upon"

Some Copperhead papers try to deny that their financial leader Pendleton, would expand the currency. On the 15th of July Pendleton spoke at Grafton, West Virginia in support of Seymour and Blair Now let us quote from the report of that speech, published in his organ, the Cincinnati *Enquirer* "The Democratic party on this question has given forth no uncertain sound * * * Five hundred millions ... the first issue of five-twenties are already ... this year be payable at the option of the Government. Redeem these at once in legal tender notes Where will these notes come from? asks some friend Stop this contraction at the Treasury Department, reverse its whole policy * * But, gentlemen, if these measures will not supply funds, I would expand the currency"

Miscellaneous Notes

The arrival of Jefferson Davis in England was scarcely noticed either by the people or the press Few even of those who wished success to are prepared now to welcome the defeated revolutionist His glory has departed, his blunders and crimes remain The Liverpool *Post* justly reminds the English public that "no man during the last half century occasioned so much misery to the civilized world" that he caused the death of a million of men, and commercial disturbance and financial suffering throughout the world and that for all this he can plead no excuse to a generation governed by moral force, unless it be that sanguine and thoughtless calculations led him into a terrible mistake. The loyal citizens of the United States from whom Davis is an outcast can visit upon him no heavier curse than that he may wander from land to land, goaded with the recollection that the whole generation of murderers and robbers on the earth have wrought less injury and spilled less blood than he

A belief prevails among those who claim to have had opportunity to know, that Mallory's bill asking for Government aid for a branch railroad from the Central Pacific to Portland crossing the Cascade mountains near the Southern boundary of the State, will be got through Congress this winter This idea is entertained by some of our citizens who have recently been at Washington They speak with no little confidence of the prospects of success We know not however, what the grounds are on which this belief is founded The Jacksonville *Sentinel* says that there is a subscription list now in circulation in that place to raise a fund for the purpose of making an examination of the passes leading out of Rogue river valley and that paper appeals to the good sense and liberality of the people of Southern Oregon, who are deeply interested in this important matter, to see that nothing is undone to secure the aid of the Government" We have often said and we still adhere to the belief that no more large subsidies will be granted by the Government for railroads for some time to come If it should turn out otherwise, and aid should be given ... to connect Oregon in some way with the main Pacific trunk, we would be agreeably disappointed.

Mr Robert E Lee, like a good Democrat as he is, has taken occasion to write a long letter ... the wrongs suffered by the South, and to argue the negro question afresh for the benefit of his political brethren at the North whose profound disquisitions on that subject were becoming rather stale. He thinks the "two races are necessary to each other." So the chivalry always thought—at least they thought the blacks were very necessary," to maintain by their unrequited labor the "gentlemen" of the South He is also of opinion that, if left to themselves the relation between the two races would soon be ... adjusted Very likely The "adjustment," however would be precisely like that which was effected two years ago under Johnson's bogus State Government when a system of peonage and oppression was introduced all over the South which made the condition of the blacks infinitely worse than their former servitude Mr Lee argues that if the blacks were "let alone" they would do well enough Just so he was accustomed to argue when they were held as slaves Perhaps he thinks that the infamous legislation of the Southern States, two years ago, has been forgotten Again, he is firmly convinced that it will not do to give colored men any political rights They have not "the qualities necessary to make them safe depositories of political power" Is it not barely possible that they would be as safe depositories of political power as individuals like Mr Lee who had conspired against the Government and attempted to overthrow it? There is no record of treason and perjury against the blacks as there is against Mr. Lee and his associates The writer further says that the negroes "would inevitably become victims of demagogues who for selfish purposes would mislead them, to the serious injury of the public" Now does not this argument have some weight against the Southern whites? Have they not been misled by demagogues? And has not this resulted in the "serious injury of the public?" In fact, was not Mr Lee himself one of the "demagogues" who "misled" them into secession and rebellion? And if the blacks are wanting in some of the qualifications of citizenship, is it likely that they will ever do worse than the "ruling race" of the South has done? We don't believe they will ever rebel, involve us in civil war and bring as many calamities upon the country as Mr Lee and his followers have done

Capt McGregor writes from Fort Klamath September 1st I have just returned after being about just six weeks The Indians are played out it was impossible to get the least show for fight out of them After traveling through the Goose Lake country, I joined the expedition under General Crook consisting of companies A H and I 1st cavalry and Company C 9th infantry All the Snakes and Pitt Rivers have come in and I do not believe there is a hostile Indian from the Sacramento to the Columbia

A letter published in the *Sentinel* says The Goose Lake valley is the finest I have seen in Oregon, with plenty of grass, wood and water It is just 100 miles from this place to where you strike the valley, over a splendid road at this season but which I think would be difficult for wagons up to the month of June Settlers were beginning to take up ranches when I left It is twelve miles from the upper end of the valley to Camp Warner, the road runs to the foot of the mountain over which the military have partly built a road.

The Jacksonville *Reville* wants to know who will take the following offer Thos Chavner, Esq, will bet the Packard Ranch, situated on Bear creek, six or seven miles east of Jacksonville and which cost him near $1 600, as appears upon the records against $800, that Seymour and Blair will carry California in the Presidential election next November There is money in Portland to wager that Grant will be next President of the United States If you will bet, talk of money and not of worn out sheet ranches Your $3 000 will find takers here

The *Unionist* says of the oil mill at Salem This mill, which went into active operation last winter, has manufactured about 15 000 gallons of the best quality of linseed oil, and is now running night and day on the large amount of seed of last year's crop still remaining on hand The amount purchased last year was 10 000 bushels ... The company has probably 30,000 bushels of flax seed engaged from harvests of the present year. This is probably a greater amount than they will manufacture The demand for home supply is limited, and they will be governed somewhat as to the activity of their operations by the prospect of a market abroad

Reported Gold Discoveries

A GENERAL RUSH FOR NEW DIGGINGS

[From the Montana Post Aug 25]

From Mr David Lusk just arrived in this city we learn that fabulously rich placer mines have been discovered in the Coeur d'Alene mountains, on the head waters of the Coeur d'Alene and St Joseph rivers These new diggings are not the same as those on the Clear Water, recently reported by us but are a long distance further north They are three hundred miles from here and are creating an intense excitement, especially on the other side of the range Mr Sweeney, formerly of Washington Gulch, has been prospecting in the Coeur d'Alene mountains for two years, and "struck it rich" about four weeks ago. His claim is situated on a stream forty five miles in length, which has been named Sweeney river From this ground he obtained prospects of one dollar to the pan, in a strip of pay gravel four feet deep and twenty five feet in width Good prospects have been obtained all along the banks of this river, and two hundred men are now engaged there opening claims. Sweeney's is the only one upon which a sluice is running On Booth's river, seven miles southwest of Sweeney's river, prospects of from twenty five to seventy five cents to the pan are obtained, with a pay streak six feet in depth and eighteen wide Upon still another river from ten to fifteen cents to the pan is obtained Tributary to all these rivers are numerous gulches in which good prospects are obtained in fact, the whole of that section of country seems to be a net work of rich placer mines There are, altogether, in these new diggings about seven hundred men and immense numbers on horseback and on foot and with every ... character of an outfit are hurrying to them from every point of the compass On his way from there our informant met fully 500 ... among them fourteen women, on their way to the new mines Billiard tables, fixtures for ... and restaurants, in fact, everything required in a large mining camp was being moved in All western Montana is in a fever of excitement The scarcity of water over the range offers no present inducement for our miners to remain and they are hurrying off to the new diggings to such an extent that some portions of the country seem almost deserted At Missoula, the crops are all standing ripe in the fields, but it is impossible to obtain hands to harvest them Five dollars per day in gold is offered for workmen, but all think they see a fortune before them, in the Coeur d'Alene mountains, and cannot stop for any such minor ... The proper means by which to reach these mines is to follow the Mullan road ... fifteen miles beyond the Big ... Ferry and then take the trail leading to the left Following this trail fifty miles in a ... direction will bring the traveler to Sweeney's river and the centre of the new gold field. These new mines are in the Territory of Idaho and the rivers upon which they are situated are the sources of the Spokane. Many of our readers will remember the remarkable richness of the ... of Florence and it may interest them to know that both the Clear Water mines recently reported by us and these Coeur d'Alene mines which we report today are in the same general range of mountains the dividing line between Montana and Idaho It would be reasonable from present appearances to suppose that these mountains are again to astonish the world with their riches and ... probable that mines will be discovered in the Montana side of them fully equal to those on their western slope

Items from Silverton

Silverton seems to be awake this season, and lays claim to the name of a live town Business here is lively, and great improvements have been made during the summer in its appearance Quite a number of buildings have gone up, and Davenport, Wolford & Co are now erecting a fine two story brick When finished, the lower story will be used for mercantile purposes and the upper one for a town hall.

We have here three dry goods and grocery stores one drug store, one hotel, one large flouring mill, two saddle and harness shops, two wagon shops three blacksmith shops and one rum house.

John A. Bingham, of Ohio, while speaking at a Republican meeting in Bangor Me, was insulted by a Copperhead, who cried out, "How about Mrs Surratt?" Mr Bingham instantly responded "How about her? Go and consult the records of the court that tried and convicted her Go and consult Gen Hancock, who issued the order for her execution in spite of a writ of *habeas corpus* which had been served upon him and, if you are still unsatisfied, go and ask that apostate President, Andrew Johnson, why he refused a pardon after a petition had been sent him signed by every member but one of the court who tried her, and drawn up in the handwriting of the man you seek to insult"

The Wheeling *Intelligencer* has good authority for saying that the Hon John Hall who was President of the West Virginia Constitutional Convention in 1860 and a delegate to the New York Democratic National Convention in July last, has experienced a pretty thorough conversion since his attendance upon the New York affair The violent demonstrations of Frank Blair Wade Hampton Howell Cobb Robert Toombs the butcher Forrest the pirate Semmes and other leaders of the Democracy, have convinced Mr Hall that he ...

A dispatch from Washington (Aug 22) states that the nomination of Vallandigham for Congress in Ohio has greatly disgusted some of the War Democrats who were officially connected with the Cooper Institute Convention and one or two of them are going to declare for Grant publicly in a few days

Seymour and Blair are agricultural candidates It appears that Seymour was recently seen on his farm putting in new hay on hearing which intelligence, Frank Blair, who was then in St Joseph Mo immediately proceeded to put in some rye

Wear and Tear.—When the constitution is weak, and the system depressed by the *wear and tear* of business life which makes such tremendous drafts upon the body and mind unless some healthful and strengthening tonic is resorted to prostration will ensue, and disease creep unawares upon the victim of negligence But if

HOSTETTER'S STOMACH BITTERS

which is a genial and purely vegetable stimulant be timely administered, the organization will resist and baffle the veins of epidemic and changes of temperature incidental to this season of the year, which disorders the nerves of the feeble

There is an active and permanent vitality in this remedy which will prove of great benefit to the broken down and shattered constitution It is the only tonic of which the stimulating principle is perfectly pure Its basis is the essential principle of sound rye which is admitted by analytical chemists to be the most harmless of stimulants and this fluid is refined from crudities which belong to it as it comes from the manufacturer The other ingredients are composed of medicinal plants and herbs and contain not one harmful element in all their composition

Manufactory Established in June, 1851.
STEAM POWER, NOS 626 AND 627 FRONT ST.
HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and STICKS of all sorts.
The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects no thing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the interior a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

The Campaign Reports of Enthusiastic and Numerously Attended Union Meetings

Eastern papers received by the overland [illegible] in earnest in all the States [illegible]

[illegible] bearer Gen John M [illegible]

Democrats admit that [illegible] present. One of them [illegible] many handsome women [illegible] more than half the [illegible] passing [illegible] ing with steady tramp [illegible] great enthusiasm [illegible] feature of the meeting [illegible] five preachers [illegible] Not less than 600 star [illegible] on the ground

INDIANAPOLIS Aug 23 — [illegible] of the campaign was held at [illegible] terday. There were 10,000 persons in the procession [illegible] crowd was variously estimated [illegible] to 20,000 [illegible] from three stands and [illegible] one-half of those in attendance could get within the sound of the speakers voices. The speech of the Hon W H Wadsworth was one of the ablest ever delivered in this State. Hon Job Stephenson the Republican candidate for Congress in the Second Ohio District, Hon N P Fishback of this city and Dr McGuire of Flemingsburg, Ky, were the speakers. It was by all odds the largest meeting ever held in this county and struck terror into the hearts of the few remaining Copperheads thereabouts. Efforts are being made to receive a speech from Mr Wadsworth [illegible] each Congressional district

WOODSTOCK Ill August 22 — The [illegible] county of McHenry is unflinchingly true to the cause of justice and progress. Those who may hitherto have thought otherwise must have been converted to the opinion above expressed on witnessing the eminently suggestive and monster mass meeting held here this afternoon. The announcement that Gov Oglesby would to-day deliver an address on the issues of the day in this town was first made but two or three days ago, yet although the farmers are busily engaged in harvesting the hay crop thousands of the sturdy yeomanry of the county resolved to forego their usual labors for a few hours and improve the opportunity of hearing Governor Oglesby expound the principles of the Republican party and expose the fallacies of the Democratic doctrines

JACKSON Mich, August 22 — The largest meeting of the campaign was held here last night. It was the formal opening by the Republicans who met in large numbers. A torch light procession opened the evening, and then the crowd marched to [illegible] Hall which place was literally jammed with enthusiastic and joyous Republicans. Ex-Governor Austin Blair the nominee for Congress gave one of his eloquent and convincing speeches which was listened to with attention save when interrupted by the loud applause. Central Michigan is awake and victory is assured

SOUTH BEND Ind, August [illegible] — To-night our Tanners to the number of three hundred turned out for torch light drill, and so great was the enthusiasm to show where they belonged that as many more could have been given out had only the torches been on hand. The streets were filled with people who started for the Court House square and organized for a regular time when a number of short speeches was delivered by our home speakers. The advertised Doolittle demonstration on Monday [illegible], numbered less than one third of [illegible] with that of ours to-night, without advertising. The Copperheads can't get up the enthusiasm and they think there is no use in trying. They are sick

SPRINGFIELD (Ill) Aug 22 — The finest display, and the largest and most enthusiastic mass meeting held at the capital since 1860 took place this evening. Early in the afternoon delegates from Atlanta, Lincoln and Carlinville began to arrive. The train bringing Senator Yates and his escort arrived at 7.45 this evening. They were received at the depot by the Springfield regiment of Tanners and the organizations visiting the city. The body of Tanners who accompanied Senator Yates numbered 400, uniformed and equipped, besides three or four hundred citizens were on the train. The crowd began assembling in front of the speakers stand as early as 8 o clock, and at thirty minutes past more than three thousand were present.

The procession after forming at the T W & W R R depot escorted Senator Yates through the principal streets arriving at the grand stand at fifteen minutes before [illegible] clock. The display of torches in marching was one of the most magnificent ever seen in Springfield. The failure of the Copperhead demonstration of last night is made doubly a disgraceful failure by the magnitude and brilliancy of that of the Republicans to night

KEOKUK, Iowa, Aug 21 — The Tanners Club held an immense meeting to-night. Headed by bands of music they marched through the principal streets of the city in full uniform. There was more enthusiasm displayed than on any occasion before. The Grant and Colfax cause in this city is meeting with unparalleled success

BRISTOL, Ind, Aug 22 — A grand Republican rally and pole raising has been indulged in by the people of this place to-day. Very little effort had been made to call together a large concourse, but like Bob Roy among the people seem to have sprung from every bush and such an overflowing of the real [illegible] holders and honest yeomanry has rarely been witnessed in this town or county

Seymour

A writer in the Troy *Times* has the following in regard to Seymour

Altogether I found that Mr Seymour resembled James Buchanan more than any other public man. I saw Buchanan in his coffin a few weeks ago, and concluded that his race expired with himself. But if anything could have cheered his childless decease it would have been the fact that Seymour was to be his heir at law. Utica and Lancaster are towns of the same size. Buchanan and Seymour ceased the active practice of the law within them at the same ages. Both took up country residences in sight of their respective cities. Seymour's home is almost as much a bachelor's as Buchanan's. They are worth about the same amounts of money. Their political capital is in the same bank department. With all his manners Horatio Seymour is almost as much of a corpse now as Buchanan.

There is plenty of evidence around [illegible] that since last December Mr Seymour has worked steadily for this nomination. [illegible] have been many and select. His [illegible] New York a week or two before [illegible] contrived with this object. [illegible] the nomination was worse than hypocrisy [illegible] worse than transparence. And he [illegible] nobody's surprise the slayer of Pendleton the deceiver of Chase the candidate.

As to the New York riots he was their [illegible] suggestor. Never will indignant history forgive his slaughter of the [illegible] by the [illegible] instrumentalities which made him the candidate. He was nominated on his solitary [illegible] Had it been among the [illegible] of the [illegible] asylum it would have been appropriate [illegible]

Gen Frank Blair in his speech at Omaha recently said that there was but one race in our country who were capable of maintaining a free government and the results of the few past years had demonstrated the fact that only a portion of that race were qualified. There upon some one of the crowd shouted "I suppose that's the Blair family." But he was at once pounced upon by those near him and most unmercifully pounded. When wearied they let him up and then discovered he was one of their own number a genuine Democratic sop well saturated [illegible]

EXTINGUISHER

PORTABLE

SELF-ACTING FIRE ENGINE

THIS INVENTION HAS FOR ITS OBJECT THE extinguishing of Fires in a more instantaneous manner than has hitherto been discovered

The advantages to be derived from the use of the EXTINGUISHER are as follows

Every fire begins on a small scale, and its rapid and uncontrollable increase is owing to the fact that at the time of its commencement (when every moment a delay in checking it is of the utmost importance) no means are ready at hand

The EXTINGUISHER is the only Engine that fills this requirement

It is always ready for use though standing unused for years

It puts out Fires instantly

It saves the great deluge of water now used for this purpose

It was effective in the hands of a Boy as the most experienced Fireman

It is portable and as easily handled as a bucket of water

It possesses within itself the power of a force pump and as effective as a Steam Engine

It is the only known invention that will put out Fires from Kerosene, Tar, Naphtaline and combustible materials now in common use
